Message from the Rector of KUIM

Assalamualaikum warahmatullahi wabarakatuh.

It is good to meet again through this space in another issue of Risalah KUIM.

We are thankful to Allah (s.w.t.) for the bounties that He has bestowed on us, one of which is the opportunity to move forward into 2006 as KUIM's sixth year in operation. The achievements and success of KUIM that are evident today are the outcome of a united commitment and close cooperation of all its staff, which I am certain will continue in 2006 and in subsequent years.

On the occasion of this new year of 2006, I urge all of you to strengthen your will, sense of purpose and vigilance to provide effective, fast and quality service to the university's stakeholders. The satisfaction of clients, namely the students, their parents, society and the nation must be fulfilled in the best possible manner because it affects the definition of the university's aspirations and image.

To the KUIM academic and administrative staff, I hope you will have the ability to carry out various duties to become "multi-tasking" human resource individuals in preparation for your transformation to "K-workers" or knowledge workers. In addition, efforts to affirm courtesy, pure values, and excellent work ethics should be taken into consideration. These include honesty, prudence, fairness, and thanksgiving. We should also have the ability to react with more confidence, clarity and speed in line with the fast developments of today's world.

As for the students, I would like to remind you that you have tremendous responsibilities towards yourselves, society and the country. You are an important and valued asset. Accordingly, it becomes your responsibility that you study hard and well in order to achieve outstanding results in both the academic field and the co-curricular activities.

As we welcome the new year of 2006, let us end our work and duties with a prayer to Allah (s.w.t.) so that He may render health, physical capability, and spiritual strength to all of us in order to help us perform our duties and undertake responsibilities with honesty and adequacy.

I am fully confident that with the high spirit and self-reliance that the KUIM community has exhibited, we will be able to realize KUIM's ambition to become a distinguished and prestigious university.

Thank you. Wassalam.

PROF. DATO' DR. ABDUL SHUKOR HJ. HUSIN
Rector
Islamic University College of Malaysia

KUIM Launches 2005 Books

The Islamic University College of Malaysia (KUIM), through its Publications Unit, organized the KUIM Book Launch ceremony for 2005, which was held at the Pan Pacific Hotel, KLIA, Sepang, on December 15, 2005. The ceremony was officiated by the Minister in the Prime Minister's Department for Religious Affairs, Y.B. Prof. Dato' Dr. Abdullah Muhammad Zin.

Dato' Abdullah expressed sincere thanks and appreciation to KUIM for the invitation to officiate at the book launch. He said that he was proud to learn that KUIM had published many books this year but he also expressed his wish that the authors and scholars at KUIM would be more active in writing more books, compared with the previous year. He felt confident that the good reputation of KUIM would continue to spread, adding that although there was a problem in marketing academic books, he hoped this situation would not discourage the academic staff from writing.

Dato' Abdullah also mentioned in his speech that writing had become one of the characteristics that is used to identify a developed country. In Malaysia, out of 15,000 books printed, only 2,000 were academic books, he said, adding that KUIM had an advantage because it could publish in three languages, namely Arabic, English, and Malay. This advantage could be utilized to capture a larger percentage of the domestic book market. Dato' Abdullah also expressed his gratitude to KUIM's Publications Unit for taking part in publishing books on Islam Hadhari.

YB Prof. Dato' Dr. Abdullah Mohd. Zin (center) with Tan Sri Dr. Mohd. Yusof Noor (left), Prof. Dato' Dr. Abdul Shukor Husin (right), and Prof. Dato' Dr. Mohd. Asin Dollah (second from left) at the launching of KUIM's 2005 books.

Y. Bhg. Prof. Dato' Dr. Abdul Shukor H. Husin, the Rector of KUIM, gave the welcoming speech, in which he expressed his gratitude for the support shown by Dato' Abdullah towards KUIM. He also thanked all the writers who had written articles or books that were published in 2005. He said that he felt proud that at the end of 2005, KUIM's Publications Unit was able to publish 15 new books and two journals.

The Rector elucidated that KUIM's major duty was the dissemination of knowledge, which can be brought about through publication and research, besides teaching. He congratulated the authors and scholars and stressed the need for more research output that could be published. These contributions through academic writings would be lasting contributions towards the success of the University's publications, he added. He also pointed out that authors should try to write in the fields that society needs so that these books could be used as reference material for the people.

The Rector's speech was followed by that of Y. Bhg. Tan Sri Dr. Mohamad Yusof Noor, Chairman of KUIM's Board of Directors, in which he expressed his pride to be among the writers and scholars of the academic world. He added that he was pleased to discover that KUIM had published and will continue to publish books in various languages.

After the official launching of KUIM's publications for 2005, certificates of appreciation and prizes were presented to the writers and the editors whose works were published in that year. The book launch ceremony ended with a luncheon in honor of the distinguished guests and the writers of KUIM. (To view the complete list of books published by KUIM in 2005, please turn to page 7.)

Al-Qur'an Seminar relates religion to science

The Islamic University College of Malaysia (KUIM), through the Faculty of Qur'an & Sunnah Studies, organized the International Seminar on Al-Qur'an from September 19-20, 2005 at the Pan Pacific Hotel in Kuala Lumpur. The seminar's theme was "Al-Qur'an and Contemporary Challenges in the Era of Globalization." The seminar sought to undertake the promotion and improvement of the awareness of Muslims throughout the world on the vital role of the Holy Qur'an as the source of knowledge and as the main foundation to the creation of a Muslim civilization. In addition, the seminar organizers saw that it was pertinent that Muslims are able to understand their Holy Book and relate it to their present knowledge in the science, technology and "k-economy" spheres.

YAB Tun Dr. Mahathir Mohamed giving the keynote address at the Qur'an seminar.

The seminar was officially opened by Y.A. Bhg. Tun Dr. Mahathir Mohamad, the former Prime Minister of Malaysia, who mentioned in his address to the participants of the seminar that all educated Muslims should make the effort to understand the Qur'an, adding that this was not a difficult task because of the numerous translations in a multitude of languages that are available in the market today. The opening ceremony was attended by KUIM's senior management, including the Chairman of the Board of Directors, Y. Bhg. Tan Sri Dr. Mohamad Yusof Noor, the Rector, Y. Bhg. Prof. Dato' Dr. Abdul Shukur Hj. Husin, the Deputy Rector for Academic Affairs & Internationalization, Y. Bhg. Prof. Dato' Dr. Mohamed Asin Dollah, who was also the Director of the Seminar.

More than 50 research papers were presented in three languages, namely Arabic, English, and Malay, in the various sessions of the two-day seminar. The participants also represented diverse educational institutions such as Sultan Zainal Abidin Religious College (KUSZA), the Technology University of Malaysia (UTM), the Malaysian University of Sabah (UMS), the Science University of Malaysia (USM), the National University of Malaysia (UKM), the University of Melbourne, Australia, and the host institution, KUIM, to name just a few.

The speakers at the various sessions, while many of them were attached to Malaysian universities, their physical appearance and nationalities, helped give the seminar the international touch. Besides the participants from Malaysia, others were from Algeria, Ghana, Indonesia, Iraq, and the Sudan.

FST students learn in a factory

By Dr. Alina Abdul Rahim

Five students from KUIM's Faculty of Science & Technology (FST) participated in a pioneer practical program that was held for three weeks during the inter-semester break in December 2005. The students were placed to gain practical experience in food technology at Omcorp Factory Sdn. Bhd., a bumiputera-owned company located in the Bukit Angkat Industrial Area in Kajang, Selangor.

The Omcorp factory was chosen by FST to be the venue for the students' practical training because it has a good track record in research and development (R&D). Its owner, Encik Abang Omar, has shown exceptional cooperation with scientists and researchers in the field of food technology, particularly in products made from oil palm. Since the mid-90s, the factory has been like a center for researchers of food technology from various universities, including the National University of Malaysia (UKM), the Agricultural University of Malaysia (UPM), and most recently KUIM.

The success of this factory in its R&D efforts has been highlighted in the local print media as well as in the Radio & Television Malaysia (RTM) documentary entitled "Innovasi" (Innovation).

Omcorp strictly follows procedures in food processing that adhere to the regulations set by the Animal Services Department and has obtained both the QAP and the HACCP certificates issued by this department. In addition, the factory fully complies with the Halal certification that was given to it by the Islamic Development Department (JAKIM).

According to Madam Mazidah, a co-owner of Omcorp, the KUIM students showed much enthusiasm, were fast learners, and were able to communicate satisfactorily using the English language. She also had praise for their skills, good character and positive personalities.

Throughout their practical program, the students were provided accommodation, transportation, and an allowance courtesy of the factory, which is a rare treat given by this training facility to KUIM's students.

For the students, the time spent at this factory served as a very valuable and useful experience, which should help them in the future when they apply for jobs. Also, the training gave them the opportunity to see in practice what they had so far learned in theory.

A Word from the Chief Editor

Assalamu alaikum.

I would like to express my appreciation to the outgoing members of the Editorial Board of Risalah KUIM. Many thanks for all your input and assistance. To the two editors who are currently abroad studying for their Ph. Ds, I wish you the best of luck. At the same time, I would like to welcome the new personalities that have joined the Editorial Board recently. I hope you will enjoy being part of Risalah KUIM and I look forward to a period of mutual understanding and cooperation so that this news bulletin can benefit from your expertise.

The English section of the Risalah contains a couple of feature articles, including a staff profile of the Rector of the university, which the Editorial Board thought was apt to publish in this issue in view of all the Rector's efforts to develop KUIM from a small and unknown institution to a large and renowned university.

In this issue, readers will also notice that the Malay section has increased by one page, while the Arabic section, which occupies the last two pages of the bulletin, has more but shorter news items to facilitate speedy reading, especially by those whose mother tongue is not Arabic.

Enjoy reading the Risalah!
Wassalam alaikum.

Risalah KUIM is published by the Center for Corporate Relations & Internationalization of the Islamic University College of Malaysia (KUIM), 71800 Bandar Baru Nilai, Negeri Sembilan Darul Khusus. Tel.: 06-798 8025/8026. Some information in this bulletin may be subject to change without prior notice. The opinions expressed in some of the articles written by the staff of KUIM are their own and may not represent the university's official stance.

Staff Profile:

Y. Bhg. Prof. Dato' Dr. Abdul Shukor Hj. Husin

By Hisham Kandil

He holds on to the coveted staff ID number of '001', which should give one a clear indication who was the first person to join the university. However, the word "join" is a bit of a misnomer due to the fact that he did not really join KUIM, but rather he helped greatly in the creation of this university. Weeks, months, and years later, other people like you and I "joined" KUIM. He has known about KUIM when it was just an idea, and has witnessed the metamorphosis of this idea into the reality of a physical entity in the form of an institution of higher learning.

Prof. Dato' Dr. Abdul Shukor Hj. Husin is the Rector of the Islamic University College of Malaysia (KUIM), a public university which has managed to nourish its undergraduate students with a scholarly diet of modern sciences coupled with a generous dose of traditional Islamic knowledge to yield a crop of young men and women who are not only experts in their religious majors, but equally comfortable when discussing the latest trends in technology. And it is even more heartwarming and gratifying when one realizes that many of these KUIM graduates hail from the most rural and remotest outposts of the Malaysian hinterland. To be a product of the religious school system and to be given the opportunity to study in a state-of-the-art university was the vision of Dato' Abdul Shukor and his founding comrades when they were thinking of establishing KUIM. And this perhaps is what distinguishes KUIM from the many other institutions of higher learning in Malaysia. Let's then embark on a journey into the life of Dato' Abdul Shukor and discover his beginnings, education, career, expertise, scholarly output, and the awards that he has received over the years.

The Early Years

Abdul Shukor bin Haji Husin was born on April 10, 1942 in the village of Tebing Tinggi in the Jerantut district of Pahang Darul Makmur. For those of you who are into interpretation of personalities through astrology, he is an Aries and his year of birth was that of the Horse. According to Chinese astrologers, "Horse" people are hardworking, independent, creative and talented. They prefer to speak plainly rather than use flowery language. And, money-wise, they are not materialistic at all. Okay, enough astrology for now.

The young Abdul Shukor attended Tebing Tinggi Malay Primary School where he received his elementary education. At that time, Malaya was still under British occupation and he got his Primary Certificate of Education a year before Malaya was granted its independence. For his secondary education, he went to two schools. The first was Sultan Abu Bakar Secondary School in Pekan, Pahang, where he studied his lower secondary subjects for three years, and the second was the famous Al-Junid Secondary School in Singapore, where he spent his upper secondary years and from which he received his Secondary School Certificate in 1962.

Being a distinguished alumnus of Al-Junid School, Abdul Shukor was awarded a full Pahang government scholarship to attend Al-Azhar University in Cairo, Egypt. Because of his excellent performance and outstanding results during his undergraduate years at Al-Azhar, the scholarship was extended for him to study for a diploma and a Master's degree. Thus, after securing his Bachelor's degree in Usuluddin (Fundamentals of Religion) in 1970, Abdul Shukor enrolled at Ain Shams University, located in the eastern Cairo suburb of Heliopolis, to get a Diploma in Education, the basic qualification that most teaching staff were required to have. With this diploma under his belt, Abdul Shukor went on to do a Master's at his alma mater, Al-Azhar. In 1973 he obtained his Master's in Akidah & Falsafah (Islamic Creed & Philosophy).

**The Rector of KUIM
Prof. Dato' Dr. Abdul Shukor Hj. Husin**

Earning a living

After getting his Master's from Al-Azhar, Encik Abdul Shukor left Cairo to return to Malaysia to start his teaching career at the Faculty of Islamic Studies of the National University of Malaysia (UKM) where he was appointed as an Assistant Lecturer in 1974. After a number of years, he was promoted to the post of Lecturer and then later in 1981 he was made an Associate Professor. Encik Abdul Shukor also served as the Head of the Department of Akidah & Falsafah at UKM for two years. Then it was time to read and do research again, and back to Cairo he went to study for his Ph.D. In 1984, he completed his doctorate studies and earned the Ph.D degree in Akidah & Falsafah from Al-Azhar's Faculty of Usuluddin.

Upon his return to Malaysia, Dr. Abdul Shukor was made the Dean of the Faculty of Islamic Studies at UKM, a post he held until 1987, and then again from 1992 through 1998. The year 1993 was especially memorable for Dr. Abdul Shukor because he became a Professor in that year and he was awarded the "Bintang Darjah Indra Mahkota Pahang", a star conferred to him by H.R.H. the Sultan of Pahang which officially granted him the title of Dato'.

Starting well before 1999, Dato' Abdul Shukor began to be involved in the steering committee for the establishment of a government-owned Islamic university college, which eventually would be turned into a university. Meeting in offices on Level 5 of the Faculty of Islamic Studies at UKM, Dato' Abdul Shukor, in his capacity as the Rector of the new Islamic University College of Malaysia, and his colleagues began to plan for the setting up of this institution. One of their first priorities was to search for a suitable location to serve as a temporary campus for the university college.

That location was the building belonging to the Professional Institute of Baitulmal in Jalan Perkasa in the Kampung Pandan area of Kuala Lumpur. The first academic session of KUIM began in the middle of 2000 in this campus with the intake of the freshman class who were divided into three majors, namely Qur'an & Sunnah Studies, Shariah & Judiciary, and Da'wah & Islamic Management. A couple of years later, as the university population grew, the Jalan Perkasa premises simply became too crowded, and a second move, this time to two rented buildings in the Ampang Jaya Municipal Council (MPAJ) Complex in Pandan Indah, Kuala Lumpur, was necessary. Finally, after years of waiting, KUIM's staff and students moved in stages to their permanent campus in Bandar Baru Nilai, Negeri Sembilan Darul Khusus, beginning in the middle of 2005.

Service to Society

In spite of his busy schedule as the Rector of KUIM and the former Dean of UKM's Faculty of Islamic Studies, Dato' Abdul Shukor still has time to lend his services to those who need it. He is a board member of a large variety of organizations, including the International Institute of Islamic Understanding (IKIM), the Islamic & Traditional Malay Customs Council of Pahang, the Fatwa Council of Pahang, the Waqf Shares Council of Pahang, and the Consultancy Council of Sharak Law of Pahang. He is also an advisor to KFC Holdings Berhad and the Pilgrims' Fund (LUTH). Dato' Abdul Shukor, moreover, is the deputy Chairman of the ASEAN Muslim Intellectuals' Association.

KUIM Organizes First Health Seminar

Report by Hisham Kandil

The Islamic University College of Malaysia (KUIM), through its Faculty of Medicine and Health Sciences (FPSK), held a one-day health seminar entitled "Holistic Approach to Healthy Living" on January 14, 2006.

The seminar, which was held at Nikko Hotel, Kuala Lumpur, was officially opened by Dato' Dr. Mohd. Ismail Merican, the Director-General of Health. In his keynote address, Dato' Ismail Merican urged the pioneer batch of KUIM's FPSK students to work hard to realize their dreams of becoming good doctors. He said that if they became good doctors, they will gain their patients' trust and respect. When a patient trusts his doctor, he will then be willing to put his life in the doctor's hands (as often happens in surgery), he added.

Hepatitis

The Director-General of Health also devoted some time to talk on hepatitis in Malaysia in his keynote address. He defined hepatitis as an inflammatory disease of the liver caused mainly by viruses, adding that there were five types of viral hepatitis, namely hepatitis A, B, C, D, and E. Hepatitis A and E are transmitted through eating contaminated food and drinking untreated water, while hepatitis B and C are transmitted by infected body fluids.

In Malaysia, there were 107 cases of hepatitis A reported in 2004, down from 1,977 cases in 1998, Dato' Ismail Merican said, and stressed that prevention measures are easy to undertake. He said that people should refrain from consuming raw or inadequately cooked seafood, salads, ice cubes made from contaminated water, non-pasteurized milk, and untreated water. Furthermore, he maintained that good personal hygiene and proper sanitation are essential in keeping hepatitis A at bay. Accordingly, people should wash their hands with soap after using the toilet, cleaning toilet bowls, changing diapers, or handling the waste materials of pets, he said.

As for hepatitis B and C, Dato' Ismail Merican pointed out that the reported cases in Malaysia in 2004 were 1,996 and 745 respectively and, unfortunately, the numbers are rising. More than 70 percent of chronic hepatitis B carriers worldwide are found in Asia, and as a preventative measure, all newborn babies and "high-risk" adults in Malaysia have been getting vaccination against hepatitis B free of charge from the Ministry of Health since 1998, he announced, adding that, however, there was no current vaccination against hepatitis C, which is preventable if one reduces or eliminates the risk of unscreened blood transfusions, unsafe injection practices, and usage of other people's personal hygiene tools, such as toothbrushes and shaving equipment.

Coronary Heart Disease

The seminar, which began at 9:00 am and ended at 5:00 pm, comprised three plenary sessions, two symposium sessions, and a forum. Plenary Session I was entitled "Coronary Heart Disease: Risks and Management". The speaker, Dato' Dr. Azhari Rosman, a consultant cardiologist and electro-

physiologist at the National Heart Institute, said that coronary heart disease (CHD) was the bane of economic progress as it is more prevalent in Western countries than in any other group of countries, citing that hypertension, high cholesterol levels, smoking, unhealthy diets and excessive body weight were some of the factors that contributed to CHD.

Dr. Azhari stated that the risk of developing CHD after the age of 40 was 48 percent for men and 32 percent for women, explaining that there are various types of heart attacks. For example, there is myocardial infarction, which occurs when a blocked artery keeps blood from getting to one's heart muscle. When this happens, one will experience acute chest pain and will feel that one cannot breathe. There is also angina pectoris, which is chest pain that occurs

when one exercises beyond one's limit. An angina attack is often a predecessor to a real heart attack and can mean that one's arteries are clogged. Furthermore, there is cardiac arrest, which involves stopping of the beating function of the heart because of a disruption of the natural electric signals inside the body. One would tend to feel dizzy and then lose consciousness. And finally, there is stroke, which occurs as a result of inadequate supply of blood to the brain. Some of the symptoms of stroke are numbness, speech defects, vision defects, and even paralysis.

Managing heart disease is an extremely important matter, said Dr. Azhari, adding that 25 percent of men and 38 percent of women die after one year of experiencing a heart attack. He pointed out that Type A personalities are more prone to develop CHD than other personalities. What is a Type A personality? It is a person who is highly competitive, impatient, self-critical and extremely busy. A Type A is also a person who habitually believes that there are so many things to do, but so little time to do them in. If this rings a bell with you, you need to take things a little easy or risk some nasty heart problems

Erectile Dysfunction

Mr. Zulkefli Zainudin, a consultant urologist at the UKM hospital, spoke on Erectile Dysfunction (ED) at a special session devoted to men's health problems. Defining ED, Mr. Zulkefli said that it was the consistent or recurrent inability of a man to attain an erection. He said that this was a growing problem, and mentioned that by the year 2025, there will be 199 million sufferers of ED in Asia alone. He added that it is a problem that many men refuse to discuss with their health care practitioners, citing one study carried out in Massachusetts, U.S.A., where results showed nearly 90 percent of men who are between the ages of 40 and 70 and who have ED never seek medical treatment.

The causes that lead men to have ED are either organic or psychogenic or a combination of the two, said Mr. Zulkefli, adding that diabetes, multiple sclerosis and alcohol consumption can result in temporary or prolonged ED while anxiety due to a desire to perform well and depression are examples of some of the psychogenic causes of ED. Fortunately, there are several drugs that help men overcome ED, however, caution must be exercised when taking some of these drugs, such as Viagra and Levitra, said Mr. Zulkefli, adding that they should only be taken under the supervision of a doctor because of their side effects as well as their negative reaction when taken with certain types of foods. Mr. Zulkefli finished his talk by saying that any person suffering from ED should go to see his nearest urologist because ED may lead to depression, misery, and low self-esteem.

Did you know...?*

- The McDonaldization and Coca-Colonization of many developing countries have resulted in a dramatic surge in the numbers of overweight children. Chubby kids usually end up being obese adults.

- In Malaysia, 3 percent of the population is obese and 20 percent is overweight. In Australia, 20 percent of the people are obese, and 40 percent are overweight.

- Having a double chin, a corpulent belly, a prominent behind, massive hips, or a triple-digit weight reading should not really be as important or worrisome as one's body mass index. The BMI is what really determines whether one is fat or not.

- Almost 90 percent of men in Massachusetts, U.S.A., aged between 40 and 70 who have Erectile Dysfunction (ED) never seek medical care or treatment (according to a well-known study conducted there). In Asia, there will be 199 million sufferers from ED by the year 2025.

- As an ED-treating drug, Viagra must be taken after consultation with a doctor. It has some side-effects and does not mix well with certain foods, and thus Viagra-users need to follow meticulously their doctors' instructions. Generic ED-treating drugs are available in many Third World countries, but they are not recommended by the majority of physicians.

- Intense work pressure, traffic jams, spouse and children's demands, as well as unfinished housework are just some of the many causes of stress, which may lead some people to drink excessive amounts of coffee, or smoke, or overeat. Stress can also result in depression, fatigue, headache, insomnia, and constipation. Women, in particular, tend to gain weight during prolonged periods of stress.

- Hepatitis is an inflammation of the liver caused mainly by a virus. Hepatitis A is spread through contaminated food and water, as well as through lack of hygiene. Make sure the workers at your favorite eatery wash their hands after using the toilet and before handling your food! Hepatitis B is acquired through exposure to infected body fluids. It can occur during blood transfusions, sexual contact, tattooing, and even ear-piercing. Check that the equipment used in the latter two are sterile.

*These quick facts were randomly compiled by this writer who attended the various sessions of the Health Seminar that was organized by KUIM's FPSK.

SPADA Graduation Dinner

KUIM recently celebrated the graduation of the first batch of the Postgraduate Diploma in Drug Abuse program (SPADA) by holding a dinner which was held on November 13, 2005 and was attended by the (then) Minister of Higher Education, Y.B. Dato' Seri Dr. Shafie Mohd. Salleh and KUIM's senior management.

The SPADA program is administered by KUIM's Faculty of Leadership and Management (FKP) and was introduced by its current dean, Y. Bhg. Prof. Datin Seri Dr. Hajjah Mizan Adiliah Ahmad Ibrahim. The program takes nine months to complete, and its students ideally must be studying on a full-time basis. The program is divided into three terms, with students taking four courses and a short internship in the first term, three courses and a short internship in the second term, and a full 10-week internship in the third and last term.

Former Minister of Higher Education Y.B. Dato' Seri Dr. Shafie Mohd. Salleh and the Dean of Faculty of Leadership and Management Y.Bhg. Datin Seri Dr. Hajjah Mizan Adiliah Ahmad Ibrahim at the SPADA facilities

Some of the courses that the students have to take include Pharmacology of Narcotics, Motivational Counseling, Religion and Rehabilitation, Relapse Prevention, Administration of Drug Abuse Services, and Issues of Drug Addiction and Treatment in Malaysia. The three internships aim at giving the students real-life experience in various areas related to the substance abuse problem, which also includes alcoholism. By being stationed in places such as counseling centers, rehabilitation centers, various agencies of the Ministry of Domestic Affairs, NGOs and institutions dealing with drug addicts, SPADA students gain tremendous knowledge and know-how from their internships.

The SPADA program is open to students who have secured an undergraduate degree, however, priority for admission to the program is given to counselors, prison officers, police officers, teachers, welfare clerks, NGO employees, and others who are involved in the education, rehabilitation, and treatment of substance abusers.

FST moves to permanent campus

The Faculty of Science and Technology (FST) has joined the other faculties in KUIM by relocating to the university's permanent campus in Bandar Baru Nilai recently. Since its establishment in 2003, the FST was housed in a temporary campus, along with the Tamhid Matriculation Center, in Bangi, Selangor. The new FST offices are currently located on the third floor of the Faculty of Leadership & Management (FKP) building in the Nilai campus until a permanent building that will serve as the faculty premises is constructed.

The FST offers bachelor's degrees in Food Biotechnology, Actuarial Science and Risk Management. The teaching staff is made up of more than 20 professors, associate professors, lecturers, and tutors. All classes in this faculty are conducted in English.

KUIM's 3rd Convocation

The Islamic University College of Malaysia (KUIM) held its third Convocation ceremony last August 2005 to celebrate the graduation of its third batch of students. A total of 374 students received their graduation scrolls from the Chancellor of KUIM, HRH Tuanku Najihah Tunku Besar Burhanuddin, in a memorable ceremony witnessed by distinguished guests, the staff of KUIM, and the families of the graduates.

Of the 374 graduates, one student was a Master's degree holder in Shariah and Judiciary. The remaining students received their bachelor's degrees. Out of this, 136 earned a bachelor's in Shariah and Judiciary, 121 secured a bachelor's in Da'wah and Islamic Management, and 116 obtained a bachelor's in Qur'anic and Sunnah Studies.

The convocation ceremony was held for the second consecutive time at the Dewan Chancellor Tun Abdul Razak (DECTAR) which is located on the campus of the Universiti Kebangsaan Malaysia.

MSD Washington Director visits KUIM

The director of the Malaysian Students' Department in Washington, Dr. Zahratul Kamar Mahmud, paid a quick visit to KUIM on December 9, 2005, to speak about educational opportunities for Malaysian students in the United States. Dr. Zahratul, in her lively presentation manner, spoke enthusiastically to a KUIM audience of approximately 30 lecturers and tutors about the educational experience of the average student in America. Also present at this gathering was the Rector, Y. Bhg. Prof. Dato' Dr. Abdul Shukor Hj. Husin and the Dean of the Faculty of Leadership and Management, Y. Bhg. Prof. Datin Seri Dr. Hajjah Mizan Adiliah Ahmad Ibrahim. Dr. Zahratul said that students heading to the United States for their postgraduate degrees were embarking on a journey of knowledge gathering that is quite unique. Despite the longer duration of postgraduate degree programs in America (compared to Australia and the United Kingdom, for example) she stressed that the "fruit harvested" was also "sweeter". The system of informal relations between professors and students over there greatly helps in melting the barrier

Dr. Zahratul Kamar Mahmud, Director of MSD Washington, receiving a souvenir from KUIM's Rector, Prof. Dato' Dr. Abdul Shukor Hj. Husin, after giving a briefing on U.S. education.

between them, and enhances the educational process to a large extent, she contended. Although most American universities require good performance in two examinations before candidates are accepted for studying there, these exams should not be an obstacle if one prepares well beforehand, she said. These two examinations are the Test of English as a Foreign Language (TOEFL) which is an examination testing one's abilities in the English language, while the Graduate Record Examination (GRE) tests one's skills in mathematical analysis and analogy capabilities.

Family Day at a Water Park

The Staff Welfare body (BKKKUIM) of the Islamic University College of Malaysia held its annual Family Day at the Desa Water-themed Park in Kuala Lumpur on February 11, 2006.

More than half of the academic, administrative, and professional staff of KUIM and their families came to the park to join in the various activities that were planned for them by the BKKKUIM. Among these activities were various 'telematch'-style games, such as a waitress race, giant ski race, roll-a-thon, and spoon and ping pong ball, to mention just a few. Categories for participation included competitions for toddlers, primary school children, wives, husbands, couples, and mixed teams.

Attractive prizes were presented to the winners of the various games and competitions, and special prizes were given to the children of KUIM's staff who achieved outstanding results in the Primary Certificate of Education (UPSR), Lower Secondary Certificate of Education (PMR) and the Malaysian Secondary Certificate of Education (SPM) as well as to the staff who had recently tied the knot. The prizes included television sets, CD players, toasters, cameras, mobile telephones, rice cookers, blenders, table fans, and hampers of packaged food items.

On the whole, it was a rather successful day and most of the staff and their children had a really good time. For two members of the staff, however, the day was marred by their discovery that their cars had been broken into in the parking area of the water park and items had been stolen from inside the cars.

Having fun competing in the water at Family Day.

KUIM's Chairman, Tan Sri Dr. Mohd. Yusof Noor, presenting a prize to a KUIM member of staff.

Staff profile (continued from page 3)

Dato' Abdul Shukor has also served on the board of the National Ulama Council in 2002, the Islamic Education Advising Committee of the Ministry of Education in 1998, the subcommittee of Arts and Social Sciences Qualifications at the Public Services Department (JPA) in 1998, and the Panel of Islamic Civilization and Philosophy at the Dewan Bahasa dan Pustaka until 1998. In addition, he was also the Chairman of the committee dealing with Islamic terminology at the Dewan Bahasa dan Pustaka from 1986 through 1992.

His latest service to the community was in the form of an appointment by the Rulers' Council to become the new Chairman of the National Fatwa Committee for Islamic Affairs, a post that he will hold for the next three years.

Besides working at KUIM and UKM, Dato' Abdul Shukor has also shared his expertise with the Science University of Malaysia (USM), the Northern University of Malaysia (UUM), and the Agricultural University of Malaysia (UPM) as a visiting professor and an external examiner. In addition, he also was a visiting professor and an external assessor from 1995 through 1998 at the University of Brunei Darussalam.

Scholarly Output & Awards

Being a scholar in the first place means that Dato' Abdul Shukor has done much research and has published extensively, something to the tune of more than 40 articles and books, many of which deal in Islamic philosophy, civilization, ideology, logic and creed. He has also written on Al-Qur'an, Hadith, Sufism, and current issues in Islam. His numerous publications and active scholarly life resulted in the conferral of the title of Senior Professor to him in 2002.

His latest book, which was published in Arabic in 2003 by KUIM's Publications Unit, is entitled "An-Nubuwwah bayna Al-Mutakallimin wa Al-Falasifah—Dirasah Muqaranah" (A Comparative Study of Prophethood from the point of view of Morphologists and Philosophers).

Dato' Abdul Shukor has received many awards throughout his life, the most prominent of which perhaps was his Dato' title, which he received in 1993 as was mentioned earlier. Other awards include the Highest Knowledge Award of Pahang, which he got in 1990, Outstanding Personality of Sultan Ahmad Shah Islamic College in 2000, and the JSM Star which was given to him on the occasion of His Majesty, the King of Malaysia's birthday in 1995.

For someone like Dato' Abdul Shukor, who has been there in KUIM from Day 1, seeing the university grow and develop in terms of student and staff population, facilities, the number of faculties, and not to forget the relocation to its final destination in the form of the permanent campus of Nilai, must have been very sweet indeed, a mission well accomplished, and a vision on its way to being fully realized.

Health Seminar (continued from page 4)

Complementary Medicine

The forum at the Health Seminar was devoted to complementary medicine. Three panel speakers discussed complementary medicine from various angles. Prof. Dato' Dr. Kew Siang Tong, dean of the Faculty of Medicine at the International Medical University, said that complementary medicine includes acupuncture, homeopathy, traditional medicine and treatment with herbs.

These methods used for the treatment of various ailments and pain may be effective in certain circumstances, but may also have drawbacks. These methods are popular with the less educated and with those living in rural areas, Dr. Kew said, adding that the more educated and urban-dwellers may harbor suspicions about these methods of treatment. Issues linked to unlicensed registration, inconsistent and unmonitored advertising, product contamination, and the lack of standardization worry many mainstream medical practitioners as well as concerned lay people, she added. As an example, she mentioned the role of the "bomoh" in Malay society. To some he is considered a healer, while to others he is viewed upon as a practitioner of black magic. Would one consider him to be a component of complementary medicine?

Dr. Aminah Kassim, a consultant child psychiatrist at the Permai hospital, focused on homeopathy. She mentioned that homeopathy was invented about 200 years ago by the German physician Samuel Hahneman. It is considered a type of complementary medicine that is based on the principle of similars, "like cures like", she said, clarifying that a substance that can cause certain symptoms in a healthy person can cure similar symptoms in an unhealthy person. She also said that there are a lot of skeptics, especially among doctors, regarding the effectiveness of homeopathy, and she advises that these skeptics should try to understand it first before judging it.

Religion and Food

Out of the 15 speakers who presented papers at the health seminar, one was from KUIM. Dr. Muhammad Yusuf Khalid, a lecturer at KUIM's Faculty of Leadership and Management (FKP) spoke on food from the perspective of Islam. His paper, entitled "Food: Health, Heaven, and Hell", dealt with lawful (halal) and unlawful (haram) food and the effects of both types on the physical and spiritual health of the consumer.

His paper also included the view of Sufism on food intake. In one part of the paper he gives some suggestions taken from well-known Sufis on achieving high spiritual enhancement. Abu Talib Al-Makki, for example, recommends that one should "eat less, sleep less, ...talk less, and mingle less" if one wants to reach a high spiritual condition. By eating less, one's body is kept active, and by sleeping less especially at night, one can devote more time to thought and prayer. By talking less, one avoids making mistakes, and by mingling less, one is protected from back-biting, time-wasting and slandering.

Dean's Concluding Words

At the end of this one-day Health Seminar, the dean of KUIM's Faculty of Medicine and Health Sciences, Prof. Dr. Nik Mohd. Nasri Ismail, paid tribute to the dedicated staff of the faculty who, despite their small number, managed to organize the faculty's and the university's first health seminar. He also stressed the need for support and assistance from the Ministry of Health to this very young Faculty of Medicine of KUIM in order for it to flourish and take its place among the other medical faculties that have existed in this country for years.

He also thanked the sponsors and all those who attended the seminar and hoped that all had benefited from the various sessions that made up the seminar, many of which were conducted in a language that was not too technical, specialized or sophisticated so that those who came from non-medical educational backgrounds were also able to follow what was being discussed with a heightened degree of interest.

Majlis Pelancaran Buku KUIM 2005 Meriah

Oleh: Hariza Mohd Yusof

Pada tahun ini sekali lagi Unit Penerbitan KUIM berjaya menganjurkan Majlis Pelancaran Buku KUIM 2005. Majlis seumpama ini merupakan acara tahunan buat Penerbit KUIM semenjak ia ditubuhkan secara rasmi pada tahun 2003 di bawah Jabatan Canselor.

Majlis Pelancaran Buku KUIM 2005 yang diadakan pada 15 Disember 2005 ini telah dirasmikan oleh Menteri di Jabatan Perdana Menteri, Y.B Dato' Dr. Abdullah Md. Zin bertempat di Hotel Pan Pacific, KLIA Sepang. Pada tahun ini sahaja, sebanyak 13 buah buku dan 2 buah jurnal telah dilancarkan, termasuk buku Islam Hadhari yang bertajuk Rakyat Berjiwa Merdeka, Islam Hadhari : Penguasaan Ilmu Pengetahuan serta Islam Hadhari dan Kehidupan. Majlis ini juga telah dihadiri oleh tetamu dari IPTA lain dan badan berkanun yang bergiat di dalam penerbitan. Dalam ucapannya Y.B Dato' Dr. Abdullah Md. Zin melahirkan rasa bangga kerana KUIM terus maju ke depan dari setahun ke setahun untuk aktif dalam bidang penerbitan. Dalam majlis ini, penyampaian hadiah penghargaan turut diberikan kepada para penulis buku, penyunting, dan juga penulis akhbar yang aktif menulis sepanjang tahun 2005. Berikut merupakan antara penerima hadiah penghargaan penerbitan untuk tahun 2005:

Y.B Dato' Dr. Abdullah Md. Zin,
melancarkan buku terbitan Penerbit KUIM 2005

Perutusan Dari Rektor

Assalamualaikum warahmatullahi wabarakatuh dan salam sejahtera,

Selamat bertemu kembali dalam buletin keluaran kali ini.

Kita bersyukur ke hadirat Allah SWT kerana dengan limpah kurniah-Nya jua, kita diberi peluang untuk melangkah ke tahun 2006 yang juga merupakan tahun ke-6 KUIUM beroperasi. Pencapaian dan kejayaan KUIUM pada hari ini merupakan hasil komitmen padu dan kerjasama erat seluruh warganya. Saya yakin ia akan berterusan bagi tahun 2006 dan tahun-tahun seterusnya.

Sempena tahun 2006 ini, saya menyeru kepada anda semua, marilah kita bersama-sama menguatkan azam, tekad dan iltizam untuk memberi perkhidmatan yang berkualiti, cepat dan berkesan kepada stakeholders Universiti. Kepuasan pelanggan iaitu pelajar, ibu bapa, masyarakat dan negara haruslah dipenuhi dengan sebaik mungkin kerana ia memberi kesan dalam menentukan citra dan imej KUIUM.

Kepada kakitangan pentadbiran dan akademik KUIUM, diharapkan anda berupaya untuk membuat kerja yang pelbagai atau 'multi-tasking' sebagai persediaan untuk menjadi tenaga sumber manusia yang 'k-workers', (knowledgeable workers) Di samping itu, usaha pengukuhan nilai-nilai murni dan etika kerja cemerlang harus dititikberatkan. Etika kerja cemerlang dan nilai-nilai murni seperti amanah, telus, bijaksana, adil dan bersyukur adalah satu kemestian. Kita juga harus mampu untuk bertindak balas dengan lebih yakin, tegas dan cepat selaras dengan perkembangan pesat dunia hari ini.

Kepada pelajar, sukacita saya mengingatkan anda mempunyai tanggungjawab besar ke atas diri anda, masyarakat dan negara. Anda merupakan aset penting dan bernilai. Justeru, adalah menjadi tanggungjawab anda untuk belajar secara bersungguh-sungguh dan memperolehi pencapaian yang cemerlang sama ada di bidang akademik mahupun ko-kurikulum.

Ketika kita mengalu-alukan kedatangan tahun 2006, marilah kita akhiri semua kerja kita dengan doa agar Allah SWT memberikan kesihatan dan kekuatan fizikal dan spiritual untuk kita melaksanakan kewajipan dan tanggungjawab dengan amanah dan sempurna.

Saya penuh yakin bahawa dengan semangat dan keyakinan tinggi warga KUIUM, kita akan dapat meningkatkan citra KUIUM untuk menjadikan KUIUM sebagai Universiti terkemuka dan berwibawa.

Sekian, wasalam.

PROF. DATO' DR. ABDUL SHUKOR H. HUSEN
Rektor
Kolej Universiti Islam Malaysia

Penyelidikan Tenaga Akademik KUIUM 2006

KUIUM MENERUSKAN KECEMERLANGAN PENYELIDIKAN

Sebagai sebuah universiti awam juga, KUIUM melalui Pusat Pengurusan Penyelidikan dan Persidangan (PPPP) giat meneruskan usaha menjalankan penyelidikan dalam pelbagai bidang. Pada tahun 2005, sebanyak 15 penyelidikan fundamental dan 3 penyelidikan pantas yang telah diluluskan oleh Jawatankuasa Penyelidikan Universiti. Walau bagaimanapun, hanya 2 buah penyelidikan pantas yang telah selesai dijalankan dan bakinya sedang berjalan.

Jadual 1: Penyelidikan Fundamental Yang Diluluskan Pada Tahun 2005

BIL.	TAJUK PENYELIDIKAN	KETUA PENYELIDIK
1.	A Historical Research To Determine The Missing Link: The Untold Story Of Dato' Che Wan Ahmad Pahang, The Worrier and Strategist	Prof. Madya Dr. Che Wan Chik Che Wan Ibrahim
2.	Konsep Sumpah (Al-Yamin) dan Perlaksanaannya di Mahkamah Syariah Selangor, Wilayah Persekutuan Kuala Lumpur, Labuan dan Putrajaya. PPPP (B) 2005	En. Wan Abdul Fattah Wan Ismail
3.	Corporate Ownership Structure and The Financial Performance of Main Board Syariah Approved Companies: An Evidence From Malaysia PPPP (C) / 2005	Cik Suhaila Abdul Hamid

CERAMAH KEMERDEKAAN 2005 ANJURAN ARKIB NEGARA MALAYSIA DENGAN KERJASAMA KUIM

Oleh: Siti Maizatul Akmar Ismail

Arkib Negara Malaysia dengan kerjasama KUIM telah menganjurkan satu Ceramah Kemerdekaan 2005 yang telah diadakan di Kampus tetap KUIM, Bandar Baru Nilai.

Antara objektif ceramah ini diadakan adalah untuk menyemarakkan semangat patriotisme dan jati diri warga KUIM khususnya pelajar dan kakitangan KUIM. Ia juga sebagai memperingati pengorbanan pejuang-pejuang terdahulu demi mempertahankan negara di samping menyemai semangat cinta dan sayangkan negara. Warga KUIM juga digalakkan untuk mewujudkan nilai perpaduan dan semangat kesungguhan bekerja di kalangan pelajar dan kakitangan.

Ceramah tersebut telah disampaikan oleh Y.Bhg Tan Sri Musa Hitam dan Jeneral (B) Y.Bhg Tan Sri Dato' Mohd Ghazali Seth bertajuk "Pengajaran daripada sejarah Malaysia yang pernah ditempuhi". Majlis ini telah dipengerusikan oleh Y.Bhg Datuk Zahari Rashid.

Majlis ini dimulai dengan tayangan filem patriotik, "Merdeka for Malaya". Majlis ini diakhiri dengan sesi soal jawab dan penyampaian cenderamata. Bagi menyemarakkan semangat kemerdekaan bagi warga KUIM, nyanyian lagu Jalur Gemilang dan Keranamu Malaysia turut dimainkan dan dinyanyikan bersama-sama. Adalah diharapkan Ceramah Kemerdekaan kali ini memberi impak dan penghayatan jitu kepada seluruh warga KUIM.

Nyanyian lagu Kemerdekaan pada majlis penutup Ceramah Kemerdekaan 2005.

LAWATAN KERJA KE AUSTRALIA

Oleh: Siti Maizatul Akmar Ismail

Satu lawatan sambil belajar ke Australia telah dianjurkan oleh KUIM sebagai langkah awal untuk memberi peluang kepada semua kakitangan KUIM menimba pengalaman dan meluaskan pengetahuan dan pandangan tentang sistem pendidikan di Australia yang merupakan antara tempat yang paling popular sebagai destinasi pendidikan antarabangsa.

Program ini telah berjaya disempurnakan dengan jayanya pada 27 November hingga 2 Disember 2005 yang lalu. Seramai 11 orang kakitangan KUIM dalam pelbagai peringkat telah menyertai lawatan ke Australia. Menurut Setiausaha Program Lawatan Sambil Belajar ke Australia, En. Mohd Asri Husain, program ini diadakan untuk memberi peluang kepada kakitangan KUIM mendapat pengalaman dan mengetahui budaya dan tatakarya masyarakat luar negara disamping memupuk semangat motivasi di kalangan warga KUIM untuk menjadikan KUIM sebagai Universiti yang terkenal satu nasa nanti.

Pelbagai program telah diatur sepanjang lawatan sambil belajar ke Australia ini. Antaranya lawatan ke beberapa universiti di Australia, Koala Sanctuary Park, Darling Harbour dan lawatan di sekitar laut Sydney dengan Kapal Kapten James Cook.

Antara staf KUIM yang mengikuti lawatan kerja ke Australia

KUIM, UTUSAN MALAYSIA & BERITA HARIAN JALIN HUBUNGAN ERAT

Oleh: Siti Maizatul Akmar Ismail

KUIM dengan berbesar hati telah menerima kunjungan hormat Ketua Biro Utusan Malaysia dan Berita Harian Negeri Sembilan, En. Ainol Amriz Ismail dan En. Ahmad Naim Tahir ke kampus induk KUIM pada 16 Januari 2006 yang lepas.

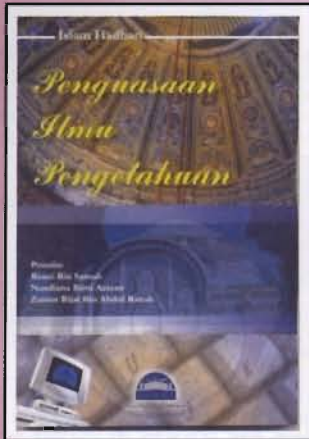

Kunjungan yang turut disertai Eksekutif Unit Pemasaran Utusan Malaysia itu bertujuan mempromosikan wajah baru Utusan Malaysia dan Mingguan Malaysia di samping menjalinkan hubungan yang erat di antara KUIM dengan pihak media.

Dalam ucapannya, En. Ainol Amriz turut memberi tips atau cara-cara menjalinkan hubungan yang baik dengan pihak media. Antaranya penggunaan konsep "Win - win Situation" dimana, kedua-dua pihak mendapat keuntungan. Contohnya, pihak media membantu mempromosikan KUIM dan dalam masa yang sama KUIM turut sama membantu pihak media dari segi profit seperti membuat iklan dalam akhbar mereka.

Majlis yang turut dihadiri oleh Timbalan Rektor Akademik & Pengantarabangsaan, Prof.Dato' Dr. Mohamed Asin Dollah diakhiri dengan penyampaian cenderamata kepada pihak media.

Wakil dari Utusan Malaysia, En. Ainol Amriz menerima cenderamata dari Y.Bhg Prof. Dato' Dr. Mohamed Asin Dollah

**SINOPSIS BUKU ANTARA TERBITAN TERBARU KUIM:**

ISLAM HADHARI
PENGUASAAN ILMU
PENGETAHUAN

PENULIS:
Rosni Abu Samah
Nur Diana Azizan
Zainur Rijah Abdul Razak

Buku ini disusun bagi menjelaskan dan menghuraikan salah satu prinsip dalam agenda Islam Hadhari iaitu penguasaan ilmu pengetahuan. Antara yang cuba diutarakan ialah kepentingan penguasaan Ilmu mengikut perspektif Islam bagi membina ketamadunan manusia yang merupakan tuntutan Islam kepada umatnya. Antara perbincangannya, ia menyentuh pengertian Islam Hadhari dari segi pengertian bahasa yang mengelirukan kepada sesetengah masyarakat. Buku ini dengan jelas menghuraikan Islam Hadhari yang diperkatakan hari ini, yang merupakan suatu gagasan ke arah memertabatkan Islam yang sedia ada sekarang yang agak lemah dan tidak bermaya menghadapi cabaran dan pembangunan disebabkan oleh penganutnya yang meletakkannya di tempat tersebut. Ia merupakan saranan bagi mengembalikan kegemilangan Islam dan memertabatkannya ke kedudukan asal.

PERLAKSANAAN UJIAN HIV KE ATAS BAKAL PENGANTIN DI NEGERI JOHOR: SATU KAJIAN DARI SUDUT UNDANG-UNDANG DAN SYARIAH**ABSTRAK**

Penyelidik:

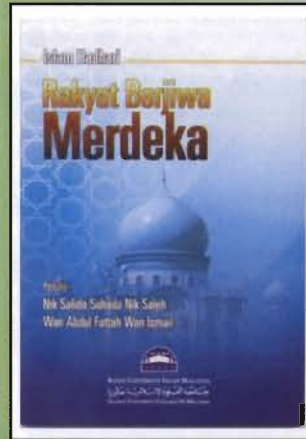

Azman Ab Rahman (Ketua)

Mushaddad Hasbullah

Syed Salim Syed Shamsuddin

Yasmin Hanani Mohd Safian

Penyelidikan ini cuba mendedahkan tentang pelaksanaan ujian HIV (Human Immunodeficiency Virus) ke atas bakal pengantin di Negeri Johor dan keberkesanannya serta mengenal pasti implikasinya terhadap kesejahteraan institusi keluarga secara khusus dan masyarakat Islam keseluruhannya, di samping penguraian mengenai pandangan Syarak dan Undang-undang terhadap ujian tersebut. Penyelidikan ini menggunakan dua kaedah. Pertama: Kaedah penyelidikan perpustakaan yang tertumpu kepada pengumpulan data daripada buku-buku, laporan, statut, enakmen dan sebagainya sama ada dari sudut perspektif Islam atau undang-undang keluarga. Kedua: Kaedah penyelidikan lapangan iaitu pengumpulan data melalui temubual dengan pihak-pihak tertentu yang terlibat sama ada pihak kerajaan atau pertubuhan bukan kerajaan (NGO), di samping soalan maklum balas yang dikemukakan kepada mufti-mufti negeri untuk mendapatkan pandangan mereka mengenai ujian tersebut. Penyelidikan ini mendapati bahawa ujian HIV ke atas bakal pengantin hanya diwajibkan di Negeri Johor sahaja, di samping beberapa buah negeri lain yang masih di peringkat perancangan dan perbincangan. Kajian ini juga mendapati bahawa Islam tidak melarang pelaksanaan tersebut demi kepentingan umum. Namun, kajian ini mendapati bahawa ujian ini hanya diwajibkan kepada bakal pengantin di Negeri Johor berdasarkan fatwa yang dikeluarkan tanpa ada sebarang peruntukan undang-undang yang mengikat. Penyelidikan ini dilihat mampu menyelesaikan permasalahan yang berkaitan dengan hak asasi manusia dan menyelesaikan kesangsian mengenai pandangan Islam dan Undang-undang terhadap ujian tersebut. Diharap penyelidikan ini juga akan dapat menjadi satu rujukan dan panduan kepada mana-mana negeri di Malaysia yang ingin mengimplimentasikan ujian yang sama.

RAKYAT
BERJIWA
MERDEKA

PENULIS:
Nik Salidah Suhaila Nik Saleh
Wan Abdul Fattah Wan Ismail

Buku ini disusun untuk menghuraikan agenda kerajaan dalam melahirkan rakyat berjiwa merdeka. Ia dengan jelas menghuraikan konsep Islam Hadhari yang menekankan bagaimana Islam menekankan aspek pembangunan agama. Pembangunan mendorong manusia berkreaitif dan menghasilkan kemajuan bertunjangkan tamadun, iaitu akidah, akhlak, ilmu, hubungan luar, keadilan dan toleransi. Agama pula membawa manusia berdepan dengan cabaran untuk meningkatkan kualiti kehidupan melalui segala aspek kehidupan. Dengan kata lain, Islam Hadhari bermaksud ajaran Islam yang menumpukan kepada peningkatan mutu kehidupan.

Antara prinsip Islam Hadhari yang diperkenalkan ialah untuk melahirkan rakyat yang berjiwa merdeka. Jiwa merdeka boleh menjadi pemangkin kepada kewujudan masyarakat Hadhari, yang merupakan tonggak untuk menjelmakan negara Malaysia sebagai negara yang mempunyai masyarakat yang bertamadun, mencintai dan menghormati negara.

الجامعة تقيم مهرجان الأناشيد لعام 2006م

أقامت جامعة العلوم الإسلامية بماليزيا (كويم) مهرجان الأناشيد لعام 2006م بالأساتد المغلق بنيلاي، نكري سمبيلن، الذي عقد في 21 وحتى 22 من يناير 2006م.

وقد شاركت فيه إحدى عشرة جامعة من جامعات حكومية وهي: الجامعة الشمالية الماليزية (UUM)، وجامعة التكنولوجيا الماليزية (UTM)، وجامعة فورترا (UPM)، والجامعة الإسلامية العالمية (UIA)، والجامعة الوطنية الماليزية (UKM)، وجامعة العلوم الماليزية (USM)، وجامعة السلطان إدريس للثربية (UPSI)، والجامعة الماليزية بسرراوك (UNIMAS)، وجامعة العلوم والتكنولوجيا الماليزية (KUSTEM)، وجامعة العلوم الهندسية الشمالية (KUKUM)، وجامعة العلوم الإسلامية بماليزيا (KUIM). وقد حصلت الجامعة الوطنية الماليزية (UKM) على الجائزة الأولى في هذا المهرجان وجانت الجامعة الشمالية الماليزية (UUM) في المرتبة الثانية، وجامعة العلوم الإسلامية بماليزيا (KUIM) في المرتبة الثالثة. وكل مجموعة من المشاركين تقدم انشودتين من إبداع أنفسهم، وتقسّم إلى مرتبتين: مرتبة الأناشيد التقليدية ومرتبة الأناشيد المعاصرة. وفي هذا المهرجان تقدم أيضا الشهادة التقديرية لأفضل كتاب كلمات الأناشيد، وحصلت على هذه الجائزة جامعة العلوم الماليزية (USM) لمرتبة الأناشيد التقليدية، والجامعة الشمالية الماليزية (UUM) لمرتبة الأناشيد المعاصرة. وأما جائزة الإبداع لمرتبة الأناشيد التقليدية فحصلت عليها الجامعة الوطنية الماليزية (UKM) كما حصلت الجامعة الشمالية الماليزية (UUM) على نفس الجائزة لمرتبة الأناشيد المعاصرة. وهناك أيضا جائزة أخرى وهي جائزة للأصوات ذات النغم الجميل، وقد نالت هذه الجائزة الجامعة الوطنية الماليزية (UKM) وفي الوقت نفسه تقدمت جامعة فورترا (UPM) كأفضل التقديم في هذا المهرجان. وقدم هذه الجوائز للفايزين صاحب السعادة رئيس اللجنة التنفيذية للزراعة وأساس التكنولوجيا الزراعية لولاية نكري سمبيلن داتو رازق منصور نائبا عن صاحب السعادة المحافظ لولاية نكري سمبيلن. وحضره نائب رئيس جامعة العلوم الإسلامية بماليزيا لشؤون الطلبة والخريجين بروفيوسور الدكتور/ محمد الحاج إلياس.

أحد الفرق المشتركة في المسابقة.

الجامعة تنظم المنتخب الرياضي لفريق الجامعة لعام 2006م.

نظمت وحدة الرياضة والترفيه بقسم شؤون الطلبة بالجامعة المنتخب الرياضي لفريق الجامعة للمشاركة في المسابقات التي ينظمها مجلس الرياضة الجامعية الماليزي (MASUM) لعام 2006م، وذلك في الفترة ما بين 15 وحتى 24 من ديسمبر 2005م. والبرنامج يستغرق عشرة أيام ويعد بالمقر الرئيسي للجامعة ببندر بارو نيلاي - نكري سمبيلن. وقد اشترك فيه مائتا شخص من الرياضيين المنضمين إلى فرق خاصة مثل: غريق كرة القدم، فوئشال، كرة السلة، كرة اليد، كرة الطاولة، تكرو، بولينج، الرياضة البدنية، تكانودو، كما اشترك فيه المدربون الذين عينتهم الجامعة لتدريب هؤلاء المشاركين لعام 2007/2006م.

ووضح السيد نور إكمال بخاري موظف وحدة الرياضة بالجامعة (كويم) أن هذا البرنامج يقام بغرض إعداد وتهيئة منتخب الجامعة للمشاركة في المسابقة الرياضية على مستوى التعليم العالي. وهؤلاء المرشحون سيوزدهم المدربون الخبراء بالمعلومات والأساليب الفعالة للرياضة حتى يكونوا مؤهلين للمنافسة العالية. وأيضا لا ننسى أن تشجيع إدارة الجامعة لهؤلاء المدربين المرشحين على النجاح والكفاح يعتبر عنصرا مهما لإقامة هذا البرنامج. وستقام المباريات في بداية السنة ومنتصف السنة القادمة. وللعلم أن هذا البرنامج سيشارك فيه كوادر خبراء من خارج الجامعة مثل مجلس الرياضة الوطني. ويتوفر التسهيلات الرياضية للجامعة في منتصف السنة وبالأساتد الرياضي المغلق بنيلاي يكون هذا البرنامج فعالا ومشجعا للبرامج المستقبلية.

الدراسة الاستنتاجية لدعاة الشباب الوطني 2005م.

نتيجة لنجاح تنظيم مجلس دعاة الشباب على المستوى الوطني في شهر أغسطس الماضي ترغب جامعة العلوم الإسلامية بماليزيا (كويم) في تنظيم برنامج آخر يهدف إلى تنفيذ الدعوة الإسلامية تنفيذًا فعالا. وهذا البرنامج يعرف بالدراسة الاستنتاجية لدعاة الشباب الوطني. وقد نظم هذا البرنامج قسم شؤون الطلبة بالجامعة (كويم) وكلية القيادة والإدارة بالتعاون مع وزارة التعليم العالي الماليزي، وذلك لمدة خمسة أيام ابتداء من 3 وحتى 7 من ديسمبر 2005م. وافتتح مجلس هذا البرنامج رسميا وزير التعليم العالي الماليزي السابق صاحب المعالي داتو سري الدكتور الحاج شافعي بن الحاج محمد صالح. وقد اشترك في هذا البرنامج طلبة وموظفوا جامعات، من بينها جامعة العلوم الإسلامية بماليزيا (KUIM)، والجامعة الوطنية الماليزية (UKM)، وجامعة فورترا (UPM)، وجامعة ملايا (UM)، والجامعة الإسلامية العالمية (UIA)، وجامعة السلطان إدريس للثربية (UPSI)، وذلك في مخيم غلانجانج بوايا، بانتينج، سلانجور (Gelanggang Buaya, Banting, Selangor). وفي هذا المخيم قد تزود المشاركون فيه بالمعلومات التي يستطيعون بها القيام بالدعوة. ومن بين تلك المعلومات ما يتعلق بمبادئ الدعوة ومناهجها، والدعوة باللسان والمقال، والدعوة بالحال، ومهارة الاستشارات والنظريات وغيرها. ويجري ذلك البرنامج بطريقة المناقشة والمباحثة والدراسة التجريبية وتقديم الآراء وغيرها من الطرق المناسبة. وبهذه الدراسة نرجو أن يكون المشاركون قد اكتسبوا مهارات واسعة تمكنهم من التعريف بشعائر الإسلام بأسلوب فعال لدى المجتمع الإسلامي وغير الإسلامي.
