3 MASALAH

Dalam Aspek Berkaitan Pengetahuan dan Matlamat Perkongsian Ilmu dalam Organisasi

Masalah

1

Ilmu pengetahuan yang diperolehi hanya disimpan dalam diri dan tidak dikongsi Bersama organisasi

2

Apabila staf penting meninggalkan organisasi, kita berisiko untuk kehilangan pengetahuan penting

3

Kita tidak mendokumentasikan dan melaksanakan amalan terbaik ataupun belajar daripada kesilapan

Matlamat

Meningkatkan keberkesanan penyampaian perkhidmatan

Meningkatkan kelestarian penyampaian perkhidmatan

Melaksanakan amalan terbaik dan meningkatkan praktis yang berkesan

Tindakan

Membangunkan budaya perkongsian ilmu dan bekerjasama tanpa silu

Membina institutional memory atau maklumat institusi secara kolektif dalam memastikan kesinambungan perkhidmatan berkualiti tinggi

Membina kejayaan, elakkan kesilapan untuk meningkatkan taraf kehidupan dan berkongsi kesejahteraan

PROBLEMS

How to bring together players to realise the MyDigital Agenda?

Information @ USIM is scattered and not easily accessible by enrolled and prospective students as well as visitors.

Our Fakulti Perubatan dan Sains Kesihatan has no teaching hospital.

Our Fakulti Perubatan dan Sains Kesihatan has no teaching hospital.

PROBLEMS

Are our graduates contributing to Agama, Bangsa, Negara and Ummah?

How to increase USIM International students?

TAMHIDI students have difficulty to perform obligatory prayers in between their tight lecture schedules because the surau at TAMHIDI is small.

There are demands for certified competencies (flexible education for career building opportunities).

The schemes for DS, DG academic staff and Guru Bahasa at KGI, TAMHIDI and FPBU are currently not facilitating career growth.
